SUPPORT PEACEFULL PALESTINIAN RESISTANCE IN KHAN AL AHMAR!

Khan al Ahmar is a Bedouin village in the West Bank (Palestine). It is located in an area known as the E1 area that Israel intends to empty of the Palestinian population. Israeli 'justice' has already approved the demolition. The Israeli army has long threatened this village. This demolition has been considered a war crime that violates international law. Several states, including Spain, have requested that this demolition be stopped but the threat of compliance remains.

Khan al Ahmar is today a reference but it is not the only village threatened. All the villages in the area and the Jordan Valley are in the same situation. Their inhabitants are subjected to restrictions and violations of Human Rights. Their schools are in constant danger of demolition.

Why is the demolition of these villages being pursued? The unacceptable Israeli policy of illegal colonization of Palestinian territories seeks to expand the maximum possible territory with the minimum non-Jewish population. This area of the West Bank is also of enormous strategic importance. On the one hand, if the forced displacement of the Palestinian population is achieved, Jerusalem would be surrounded by colonies, dividing the West Bank into two, further breaking the continuity of the Palestinian territory.

In addition, with the prohibition of access to fields and aquifers, Palestinian agricultural production will be further weakened and the deterioration of the Palestinian economic fabric will progress irredeemably. This is a new salting of Palestinian territory that comes in addition to the one that Israel executes with the continuous colonization, the construction of the wall and the systematic occupation of lands.

From that moment, a Palestinian state would be unfeasible.

For the moment, Khan Al Ahmar resists thanks to the resilience and peaceful resistance exercised by the Palestinian population, its media coverage and international pressure. But the demolition attempt could be resumed at any time. Therefore, Palestinian society and the community of Khan Al Ahmar make an **explicit and urgent call for activists from around the world to accompany the peaceful resistance of the inhabitants of Khan Al Ahmar on the dates indicated**, as they suspect that Israel will try to demolish the village imminently.

DEFENDING KHAN AL AHMAR IS DEFENDING HUMAN RIGHTS AND PEACE IN PALESTINE. DO NOT ABANDON THE INHABITANTS OF KHAN AL AHMAR!

Those interested in participating should write urgently to the following email where they will receive information about the trip: khanalahmar@gmail.com

The initiative has the support in the field of Occupation and Wall Resistance Commission and the following organizations of the Spanish State and Italy:
